

**FAAS**Team presents:

# **Rusty Pilot**

We have put together a fun, interactive program that gives you all the information you need to get current again. Our dynamic presenters will bring you up to speed on hot-button issues like medical reforms, weather briefings, preflight planning, FARs, and airspace. You will leave the seminar with a logbook endorsement attesting that you have completed three hours of ground training toward your Flight Review. And we will help you connect with flight instructors so you can take the next step and quickly get back to active flying status.

Join us remotely via Teams

**Directions:** Located in the Rainier Flight Service classroom. Aircraft parking at Renton is very limited. Please call ahead to check availability.

#### **A message from the National FAASTeam Manager**
